

How to use Go Fund Me: Easy-to-Follow Tutorial

What is Go Fund Me? A website that allows users to create their own pages to raise money for their particular interests.

Step 1: Go to www.gofundme.com. Click on the "Sign Up Now" icon to get your account started.

The screenshot displays the GoFundMe website interface. At the top, the logo "gofundme BETA" is accompanied by the tagline "get money. get going." and navigation links: "home", "search", "tour", "buzz", "blog", "questions", "contact", and "sign up". A link for "Already a member? Sign In" is also present.

The main banner on the left reads "Raise Money Online" and "The easy way to accept online donations!". Below this, three steps are illustrated: "1. Create" (with a computer icon), "2. Share" (with social media icons), and "3. Collect" (with a gold coin icon). A large orange button says "TRY IT FREE" with the subtext "get setup in 60 seconds or less".

On the right, a sample fund page titled "Honeymoon in Venice!" is shown. It features a progress bar indicating "You raised \$2,500" out of a "Goal: \$5,000". The page includes a photo of a couple, a "Donate Online" button, and a "Share with Friends" button. A green callout box with a yellow arrow points to the "Sign Up Now" button in the bottom right corner of the page.

At the bottom of the page, there is a search bar labeled "Search by location or name...", a "Search" button, a "Live Feed..." link, and a "Sign Up Now" button with a yellow arrow pointing to it.

Step 2: Enter the amount of money you wish to raise and what it is for. Then complete entering your personal information. Click "Create Account".
